### INTRODUCTION

Whether you need the rugged quality of our standard console systems product, or require special technical assistance in designing and building console configurations to meet unique applications, American Wireless is standing by to assist you with our versatile and multi-dimensional **Legacy Line** of Control Center Solutions.

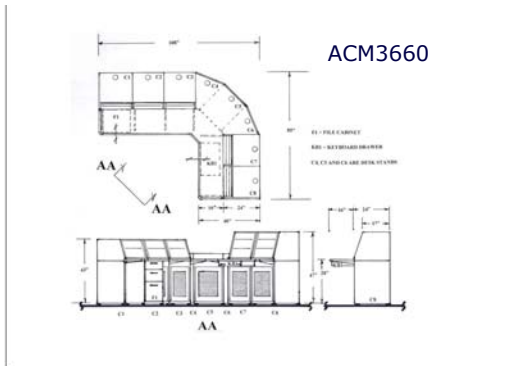

The **Legacy Line** of Control Center Furniture features standard metal bay cabinets in multi-dimensional configurations. These base cabinets are complemented by a large variety of modular upper turrets which may also be used as *stand alone* Desk Top Work Stations.

American Wireless Inc., with over 40 years of experience in Control Center applications, provides solutions for the wide variety of communications console configurations used in the Public Safety, Utility and Federal Government Markets.

**Featuring**
