

Seamless Integration into your Command and Control environment

Sight-Line consoles with pole-mount LCD monitors provide unique process control room environments. Expansive desktop work surfaces and adjustable monitor sight lines help optimize operator comfort and productivity.

Sight-Line consoles are designed for seamless integration into your command and control environment. Flexible design options and customizable accessories provide a technical furniture infrastructure that enhances workflow & maximizes operator effectiveness.

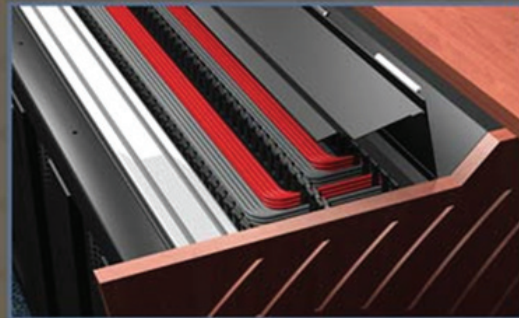

We offer a complete line of multi-dimensional metal bay and laminate style Control Center Furniture and accessories in a variety of configurations.

Please contact us for a free consultation and design.

VERSA-TRAK

Integrated aluminum track system will support a wide variety of monitor arrays or M-View framework.

DUAL CABLE RACEWAY

Enhance reliability while protecting and managing your cables with *Sight-Line's* large dual cable raceway.

DATA/POWER ACCESS

Openings for a universal data mounting plate and duplex power are conveniently located behind the work surface. Wiring not included.

MULTI-PURPOSE DOORS

Double-panel doors are extra sturdy to support a CPU shelf or file/storage bin for convenient swing-out access. Same door, front or back of console.

All consoles are equipped with the Versa-Trak monitor mounting system, top accessible dual cable raceway and junction boxes for power and data ports located just behind the work surface but out of sight of the operator.

A wide variety of accessory items, include height adjustable monitor arms, sit/stand work surfaces and rack mount equipment turrets, are available to compliment this configuration.

Please note that accessory items such as LCDs and key boards, etc. in the product illustration are not included with the product, they have been shown to help with the preliminary conceptual planning.
